Changing My Password, My Account Name, or My User Name

After you log in to your web site account, select the link, “My Account.” You will see four tabs. The first tab, “Login Information” is the default tab.

1. To change your password, click on “Change your password” and follow the instructions that are displayed.

2. To change your account name, click on “change your name” and follow the instructions that are displayed. Note: Use this when your name has changed. It cannot be used to change the account from one person to another person.

3. To change your user name, click on “change your user name” and follow the instructions that are displayed.
