Verifying My Email Address

You cannot enroll in any Reading First event without a verified email address.

If you have not received an Email Verification Code (EVC) message, you can go to a link on your account to have another one sent. However, first please check your trash or spam folder to see if the email message was inadvertently sent there.

To send your email account another EVC message, go to your “My Account” page (1) and click on the “Email Settings” tab (2). Then select the “more info” link that follows “Pending Verification” (3). On the subsequent screen, click “Re-verify My Email Address” (4).

If additional help is needed, please contact the RF office by email (readingfirst@virginia.edu) or by phone (877.827.3237).

Please continue to the next page.
Step 1: Upon receiving and reading an email automatically generated by our web site, click on the link to verify your email address.

Step 2: On the subsequent screen, enter your password- the password YOU created when you registered your web site account. A success message will then appear.
